Scheuten Solar supplies solar modules for 1.7 MW project in Leonidio Arkadias, Greece

Scheuten Solar, an international player in the field of the design, production and distribution of solar modules, supplied Multisol® P6-66 solar modules for an 1.7 MW ground mounted solar project in Leonidio Arkadias, in the region of Vaskina in Greece. This project is a private initiative of Efkleia Development SA in Athens. The design has been completed and the installation is being carried out by Scheuten Solar's partner Stamenico.

Efkleia Development SA aims at strengthening the region's development with the realization of this solar plant, improving the quality of life in local rural and farming areas and providing incentives for future investment. As stated by Mr. Michael Efstathiou, Vice president of Efkleia Development S.A.: "It is a great pleasure for us to implement such a major project in our place of birth. We have teamed up with Scheuten Solar thanks to their extensive experience in large PV projects, excellent quality of solar modules and their outstanding warranty conditions. The output and reliability of Multisol® modules make them a solid investment for the future."

The aim of Scheuten Solar Hellas is to contribute actively to the expansion of renewable energies both in Greece and the Balkans, by always providing intelligent and reliable solutions, ensuring high performance solar investments.

- END -

Scheuten Solar is an international player in the field of the design, production and distribution of solar modules. Besides being a manufacturer of high-quality German-made products, we are professionals in the development and implementation of turnkey (BI)PV projects. We are dedicated to providing added value to our customers with powerful PV solutions. Our employees operate locally using high-quality products and solutions made for the future.

Scheuten Solar has over a decade of experience in the field of solar energy and forms part of the Scheuten group, an international high-volume manufacturer of total solutions in glass and solar energy systems with its head office in Venlo, the Netherlands. Scheuten employs in excess of 2,000 staff and achieved a turnover of over 500 million euro in 2010.
